The City of Ottawa is currently recruiting residents to serve on the 2018-2022 Municipal Election Compliance Audit Committee.

This independent, statutory body is responsible for considering applications for compliance audits respecting the election campaign finances of candidates and registered third party advertisers. The Committee will also review reports regarding apparent contraventions of contribution limits by contributors.

Applicants must have a thorough understanding of the municipal campaign finance rules under the *Municipal Elections Act, 1996* and have no involvement with any municipal election campaign. Ideal candidates would have practical experience in administering elections and may include former municipal clerks, elections office managers, auditors, accountants, or lawyers. Committee or tribunal experience and/or bilingualism are assets.

If interested, please visit ottawa.ca/ecac for more details on eligibility, qualifications, term of office, role and responsibilities, and remuneration.

Applications must be received by **July 6, 2018, at 4:00 p.m.**

A letter of interest, accompanied by a current resume, may be submitted by mail or email in confidence to the attention of:

M. Rick O'Connor, City Clerk and Solicitor

110 Laurier Ave West

Ottawa ON K1P 1J1

Email: rick.oconnor@ottawa.ca

Applications must include the applicant's **residential address, contact information and language proficiencies.**

For more information: contact Eric Pelot at 613-580-2424, ext. 22953, (TTY: 613-580-2401) or by email at committees@ottawa.ca

Eastern Subwatershed Stormwater Management Retrofit Study

Online Information Session

June 15 to July 13, 2018

Online Information Session

ottawa.ca/eastsubwatersheds

The City of Ottawa has initiated the Eastern Subwatersheds Stormwater Management Retrofit Study to identify a strategy for Taylor Creek, Voyageur Creek, Bilberry Creek, and the urban tributaries of Green's Creek. This Study is one of 17 Ottawa River Action Plan projects.

The study rationale, objectives and existing conditions were presented at the first Online Information Session in July 2014. This information remains available on the City's website (ottawa.ca/eastsubwatersheds).

You are now invited to the last Online Information Session to review and comment on the draft final results of the study. The proposed retrofit plan provides a strategy to help mitigate the impacts of uncontrolled runoff from areas in the east end of the city that have little or no stormwater management. This Study has been carried out as a Master Plan in accordance with the requirements of Phases 1 and 2 of the Municipal Class Environmental Assessment.

Please provide your comments by July 13, 2018. The study team will review all comments and respond to any concerns or questions before the study is finalized.
